Q   Set-A

Q2   import Java.io.*;
          {
            public static void main (String[] args) throws IO Exception
            {
                Printwriter pw = new Printwriter (" three.txt ");
                Buffered Reader br = new BufferedReader (new FileReader ("one.txt"));
                String line = br. readline ();
                while (line! = null)
                {
                    pw.println (line);
                    line = br.readLine ();
                }
                br = new BufferReader (new FileReader (" two.txt"));
                line = br.readLine ().
                while(line! = null)
                {
                    pw. println (line);
                    line = br. readLine ();
                }
                pw flush ();
                br. close ();
                pw. close ();
