End Term Practical Exam :-

Ques 3   public class Employee

```java
{
    public static void main (String [] arys)
    {
        Employee employee = new Employee ();
        employee . employee_name = "Himanshu Tomar";
        employee . employee_id = "106";
        employee . employee_Salary = "50000";
        employee . showDetails ();
    }
}

class Employee
{
    String Employee_name;
    int Employee_id;
    double Employee_Salary;
    void show details ()
    {
        System . out. println ("Employee Name" + employee_
                                                        name);
```

```java
System.out.println(" Employee Id "+ employee_id);
System.out.println(" Employee Salary "+ employee_Salary);
}
}
```

(3 too)
