Name - Harshit Behar
Roll no - 19051076
Course - BSc (IT), 4th Sem.

Ques 2. Merging two txt File into another and Printing the third file Content.

⇒
```java
import java.io.*;
public class merged
{
    public static void main(String []args) throws IOEnception
    {
        PrintWriter pw = new PrintWriter("three.txt");
        BufferedReader br = new BufferedReader(new FileReader
                                                    ("one.txt"));

        String line = br.readLine();
        while (line != null)
        {
            pw. Println(line);
            line = br. readLine();
        }

        br = new BufferedReader(new FileReader("two.txt"));
        line = br. readLine();
        while (line != null)
        {
            pw. Println(line);
            line = br. readLine();
        }
    }
}
```

Behar

```java
pw.flush();
br.close();
pw.close();

System.out.println(" Merged one.txt and two.txt into
                                  three.txt \n ");

File three = new File(" C:\\Users\\Harshit\\Desktop\\
                              merging ");

br = new BufferedReader(new FileReader(" three.txt "));

String st;
while ((st = br.readLine()) != null)
System.out.println(st);

}

}
```
